EATA CONFERENCE 2010

15th-16th June 2010 - Parma, Italy

University of Parma

SECOND CALL FOR PAPER

www.eata.unipr.it

Fourth EATA Conference 15th-16th June 2010 Parma, Italy

The European Asphalt Technology Association (EATA) is an organization that was established in 2003 with similar aims and structure to the well established US Association of Asphalt Paving Technologists (AAPT). It provides a forum, on a European scale, for regular biennial technical meetings combined with publication of high quality fundamental and applied research in asphalt technology.

The University of Parma (Department of Civil and Environmental Engineering & Architecture) and the "Ecole des Travaux Public de l'ÉTAT (Department of Civil Engineering) take great pleasure in inviting you for the third International EATA conference "EATA2010" which will be held in the city of Parma (Italy).

A warm invitation is extended to participate in this fourth meeting and to offer a paper for review.

Parma is a city in the Italian region of Emilia-Romagna famous for its architecture and the fine countryside around it. It is the home of the University of Parma, one of the oldest universities in the world. Parma is divided into two parts by the little stream with the same name. The Italian poet Attilio Bertolucci (born in a hamlet in the countryside) wrote: "As a capital city it had to have a river. As a little capital it received a stream, which is often dry"

Topics

Bitumen and modified properties
Structure-performance for asphalt materials
Asphalt mixture properties
Asphalt durability
Design of asphalt mixes
Accelerated testing
Surface characteristics
In situ and laboratory test
Environmental aspects for asphalt materials
Modeling of pavement materials
Pavement design and evaluation
Vehicle-tyre-pavement interaction
Long-term pavement performance
Nano-technologies in asphalt

Publications

Papers will be selected using a rigorous peer review system. Accepted papers will be presented at the meeting and published in a special edition of the International Journal "Road Materials and Pavement Design", which is an ISI indexed publication.

For any information or clarification about publication and peer review process please don't hesitate to contact Gabriele Tebaldi,
Phone: +39 0521 905906 - E-mail: gtebaldi@unipr.it

Information for authors

The information for authors are on the International Journal "Road Materials and Pavement Design web page: <http://rmpd.revuesonline.com/>

Paper submission

The paper submission will be on line by the conference webpage "www.eata2010.unipr.it" section "Publications"

Key dates

Paper submission	July 26 th , 2009
Notification of review results	November 16 th , 2009
Final submission of accepted papers	February 1 st , 2010

Pre-Conference Short Course
